## DEMOCRATIC CAMPAIGN FUND.

Between \$500,000 and \$1,000,000 Required to Finance Struggle.

Chicago, Aug. 14.—The democratic national campaign fund of 1908 will be raised through appeals made to the individual states for contributions. Each state, under the direction of its national committeeman or a financial representative designated for the purpose, will determine its own method of raising money. The general plan became known on arrival here of Chairman Mack, of the national committee, from Lincoln, Neb., and the plan is understood to have met the entire approval of W. J. Bryan.

John W. Kern, vice presidential candidate on the democratic ticket, and members of the campaign text book committee accompanied Mr. Mack to this city. Mr. Kern will leave later in the day for his home in Indianapolis.

The financial committee, of which Colonel Moses C. Wetmore of St. Louis is chairman, generally agreed that between \$500,000 and \$1,000,000 will be required to finance the legitimate expenses of the coming presidential struggle.

## FOR STATE PROHIBITION.

Regular Republicans of Tennessee So-  
ciety Declare in Platform.

Nashville, Tenn., Aug. 14.—George N. Tillman, of Davidson county, is the gubernatorial nominee of that part of the republican party in Tennessee known as the Evans faction. He was nominated by acclamation at the close of the second republican state convention held in Tennessee this week. Great enthusiasm marked the nomination of Tillman, and the adoption of a platform containing a plank providing for state-wide prohibition of the liquor traffic through extension of what is known as the 4-mile law.

Like Mr. Tillman, Marion Richardson, of Lawrence county, the nominee for railroad commissioner, was not opposed for the honor.

The state legislative committee was reorganized. R. A. Haggard, of Wayne county, was temporary chairman, and C. N. Tate, of Cocke county, was permanent presiding officer. The utmost harmony prevailed throughout.

## ANOTHER CHANCE FOR HARPER.

Judge Fite Will Hear Motion for a New Trial.

Atlanta, Aug. 14.—John Harper, under sentence of death for the murder of Sheriff Keith, of Murray county, will get another lease on life, it seems. By his escape from the Fulton county jail, subsequent recapture, and strenuous efforts that were made to secure a pardon for him, Harper gained considerable notoriety.

The governor and the pardon board refused to do anything for Harper. Now, it is said that Judge A. W. Fite will entertain an extraordinary motion for a new trial, and it is declared that the new hearing will be granted.

Attorneys for Harper claim to have testimony to the effect that one of the jurors who tried Harper was heard to make a threat before the trial that he was going to do his best to get Harper hanged.

Russians Arrested at Teheran.

St. Petersburg, Aug. 14.—A dispatch received here from Teheran says a misunderstanding has arisen between M. Hartwig, the Russian minister, and General Liakhoff, the military governor of Teheran, over the arrest of two Russians for carrying arms. M. Hartwig caused the prisoners to be released and addressed a sharp remonstrance to General Liakhoff to the effect that Russians should not be arrested without his permission.

Hotel Sharp Caught.

Anniston, Ala., Aug. 14.—Manager C. H. Mitchell, of the Alabama hotel, received a telegram from the Hotel World, Chicago, stating, "G. B. Stark, alias Brandt Coles, Bennett etc., arrested at Doyle. If you want him wire sheriff, Denison, Texas." Stark is the alleged hotel sharp who is said to have passed bogus checks on the Alabama hotel here. Florence, Birmingham, Tupelo, Gadsden, and Southern, Meridian.

## CALLS EXTRA SESSION

Legislature to Re-Assemble on August 24th.

## A RESUME OF SOLONS' WORK

Early at Night the Clock Was Set Back and the Legislature Got Ready to Make an All-Night Job of It. Lacked Usual Vivacity.

Atlanta, Aug. 14.—As the big bell in the courthouse clock tolled the hour of 3 a. m. the gravels of President Flynt, of the senate, and Speaker Slaton, of the house, went "bang," and with it the valedictory:

"This house stands adjourned, sine die; God bless you." According to the official clock of the house, which had been stopped, it was only 8:23 p. m., while that in the senate pointed to 9:50.

This was made necessary by the law which makes the legislature adjourn by midnight of the 50th day.

GOVERNOR HOKE SMITH.

Contrary to the general expectation the governor did not send in a special message calling the legislature in extra session and naming the day, during the evening, but will publish a proclamation to this effect during the week, calling it for probably August 24, and at the same time naming the bills to be acted upon.

### At the Extra Session.

The convict bill is sure to be one; the anti-lobby bill will probably be another, and efforts are being made to have still others named.

The bone of contention in the legislature, at the close, was the appropriation bill for the support of the Agricultural college at Athens—\$25,000 for this year, and \$50,000 for 1909.

The senate tacked on an amendment of \$5,000 for the experiment station not yet located, at Waycross, and the same amount for the station at Griffin.

The house refused at first to concur, but at 2:45 o'clock concurred.

### Not as Lively as Usual.

With the knowledge that they were soon to return to the capitol for an extra session, the members of the house lacked the usual vivacity on the closing night of the session, and the early morning hour at which adjournment was reached did not contribute to the gaiety of the legislators.

For the first time in the history of the state, the legislature has failed to do in fifty days what was set out for it to do, in the way of passing legislation, and the result is an extra session at a consequent cost to the people of \$2,000 a day.

In issuing the call the governor will specify the measures which may be taken up. All extraneous and irrelevant matter will be ruled out when the body meets and no action permitted except upon the subjects dominated in the call.

Not until the "extra session" adjourns can the summary of the session be formulated.

On the last day of the session both

houses worked hard, each holding three sessions.

### Two Important Measures Passed.

Two important senate measures were passed by the house at the afternoon session, and with the signature of the governor will become laws in Georgia.

The first extends the present school book contract, which expires January 1, 1908, to January 1, 1911.

The other is a primary measure which fixes the date of state primaries at some date not sooner than 60 days before the general election in October.

The first means that there will be no school book war in the fall, with its consequent fluctuations in bids and change in text books.

The second means that there will be no more primaries on June 4.

Another important action taken was that of tabling the resolution which sought to set as a special order the senate measure which gives the right of eminent domain to water powers.

Georgia will continue to be a near dry state, so far as the prohibition legislature is concerned, for again the house deferred action on the resolution to memorialize congress to enact a law which would prohibit the shipment of intoxicants into Georgia, a dry state.

The resolution, which caused an adjournment of the house on Thursday, was sent to the heel of the house calendar, which prevented its being reached at the session just adjourned.

Again the house went on record, by a *viva voce* vote, as being opposed to the resolution.

The senate concurred in the house amendments creating Greater Atlanta.

The senate tabled the bill by Alexander providing for the appointment of a commission to investigate the wisdom of extending the Western and Atlantic railroad from Atlanta to the sea.

A number of local bills and pension bills were also passed. Authority was given for policemen and firemen to ride free on street railroads.

The senate failed to approve the tax on near beer.

It failed to authorize suits against a railroad in the county in which the central offices of the road were located as well as in any county in which damage was done, for which reparation was claimed.

The anti-lobbying bill was not reached.

By the terms of Georgia Volunteers measure Georgia is to have a "home guard," subject only to the call of the governor.

### What They Did Accomplish.

The legislature during the session just closed passed measure appropriating \$3,000 to pay expenses of convict probe, directing committee to report to extra session.

Passed Henderson resolution delaying renewal of school book contract for two years, until January 1, 1911.

Passed measure creating Greater Atlanta.

Passed constitutional amendment by Mr. Foster, giving pension to every confederate veteran and widow with less than \$1,500.

Passed the telegraph bill, forcing companies to deliver promptly all messages received, under penalty of fine.

Passed a pure registration bill, which was urged by Governor Smith.

Passed the primary election law, another measure favored by the governor.

Passed measure creating "Georgia Volunteers," after spectacular fight in the house.

Passed measure making pension commissioner elective by the people.</

## OLYMPIC TEAM WILL BE HERE MONDAY

Two Games Have Been Arranged for Between This Club and Oak Halls.

### AMONG BEST IN THE STATE

But Manager Davis of the Local Bunch Has No Fear of the Result in Either Contest—Gainesville to Go to Fernandina.

Arrangements have been made for a series of two games between the fast Olympic ball club of Jacksonville and the Oak Halls, these games to be played in this city next Monday and Tuesday afternoons.

The Olympics are said to be the best amateur club in the State—with the exception of the Gainesville aggregation—and it is safe to predict something of an interesting nature when these teams come together.

The contest with Palatka on Thursday tended to increase interest in the game here, and the attendance upon these two contests should be large.

On the 19th the Oak Halls will go to Fernandina for one game with the boys of that city. An excursion will be operated to that point on this date and the special low rate of \$1 for the round trip is offered from Gainesville.

### THE NEWS FROM WALDO.

Prof. Bryant Returns With Bride. Quarterly Conference.

Waldo, Aug. 14.—Prof. M. M. Bryant and bride, nee Miss Mabel Wilkerson of Jasper, have arrived, and will both teach in the public high school, to open the first Monday in September. Prof. Bryant taught in the Jasper Normal Institute last year and takes charge as principal here.

The quarterly meeting of the Methodist church was held Saturday and Sunday. Presiding Elder Bridges and the pastor, Rev. T. L. Z. Barr, conducted the meeting, the former preaching four excellent sermons. Dinner was served at the church Saturday and thirty partook of the delicious viands, official members being present from Melrose and Hampton. The communion was served on Sunday from a handsome individual set, the present on the occasion of Mrs. A. G. Masters.

The Baptist protracted meeting suspended from Friday till Monday, on account of the pastor being called away, and then resumed.

Mrs. Hendley and children are off on the road with Mr. Hendley, who is in charge of the bridge gang and train.

Measrs. John Winter and M. W. Hogan were at Jacksonville two days on the case in United States court of Charles Eddy against the S. A. L. Railway Company for lumber furnished before the road went into the hands of a receiver.

The fixtures of the defunct bank are being shipped back to the parties from whom they were purchased, having never been paid for. Receiver J. H. Coffee says about a thousand dollars is on hand to partially reimburse depositors.

The area planted in sweet potatoes has been largely increased, principally to supply the enormous demand from other States for plants next year, which trade has been worked up by our progressive farmer, nurseryman and seedsman, T. K. Godbey.

Liveryman Gunter is closing out his stable and has been away for sometime arranging for a move.

A game of baseball was played on Thursday between the teams of Waldo and Archer, which resulted much in favor of Waldo. The stores were closed and a number of citizens witnessed the game.

The Misses McManus of Lakeview Cottage were visiting Miss Alice Strickland this week.

Miss Gladden of South Carolina is visiting her sister, Mrs. Orlando Weeks.

Mrs. Neal, the aged mother of J. L. Neal, lingers very low at the home of her son, Christopher Neal.

Mr. Gholman is working in J. P. Entenza's cigar factory.

Dyspepsia is America's curse. Burdock Blood Bitters conquers dyspepsia every time. It drives out impurities, tones the stomach, restores perfect digestion, normal weight, and good health.

Bryan's "Big Stick" Gourd.

Fairview, Lincoln, Neb., Aug. 14.—Several hundred farmers from Otoe county, Nebraska, headed by H. H. Hanks, of Nebraska City, who came to Lincoln to attend the notification ceremonies rode out to Fairview Thursday and presented the democratic nominee with a "big stick" gourd. They also handed him a contribution of \$50 subscribed by fifty of their number. In accepting the gourd and the contribution Mr. Bryan assured his visitors that if elected to the presidency the "big stick" would not be in evidence believing it was easier to lead people through their love than to control them through their fears.

Arrested For Receiving Bet.

New York Aug. 13.—Charles Maboney manager of the Hoffman House cafe who was arrested for receiving \$60 to bet on a horse for a friend, has been discharged from custody. The court of special sessions acquitted him of the charge of bookmaking on Justice Gaynor's recent decision that an individual bet is not a crime.

The case was conducted personally by District Attorney Jerome who told the justice that he had singled it out for a test.

Macon Blind Tiger Raided.

Macon, Ga., Aug. 14.—Twelve or fifteen patrolmen, headed by Chief of Police Sam Wescott, raided the store of Cornelius O'Connell, took charge of a quantity of whisky, and made two cases of alleged violation of the state prohibition laws and the city ordinance against the sale of intoxicants. O'Connell made bond. He already has several cases pending.

Dawson Negro Gets Big Pension.

Dawson, Ga., Aug. 14.—Terrell county has a colored citizen by the name of Abram Faniel, who draws a pension of \$100 per month from the federal government. He served in the Spanish-American war and lost his eyesight and therefore receives this liberal pension on account of total disabilities incurred during the war.

Zayas Tenders Resignation.

Havana, Aug. 14.—At a meeting held by the executive committee of the liberal party Alfredo Zayas tendered his resignation as a candidate for the presidency of the republic and as president of the liberal party. The first was accepted, but the latter was refused unanimously.

What a New Jersey Editor Says.

### WRIGHT'S AEROPLANE.

Left Wing of Airship Damaged by Striking Ground.

Le Mans, France, Aug. 14.—The Wright aeroplane has suffered an accident which will require several days and possibly a week to repair.

After two superb flights Wilbur Wright essayed a new and daring descent. He stopped the motor at a height of 75 feet and tried to come to earth on a gradual descending glide. The calculations were not absolutely correct and the left wing of the aeroplane came in contact with the ground. This tore the frame of the machine. Mr. Wright was not injured.

### Brittle Lizards.

Some kinds of lizards break in two when suddenly startled. In the bush in Australia the traveler often comes across a number of these little silvery reptiles basking on a log or piece of old bark. As soon as they perceive the invader there is a great commotion. They dart hither and thither so quickly that the eye can scarcely follow their movements. The effects of the shock are evident from the quantity of wriggling tails lying about which have been cast off in the hurry, while the mutilated owners may be seen scurrying away to safety still wagging the stumps that remain.

### Density of City Population.

Although there is a certain area of about three and a half acres on Manhattan Island where the density of population is at the rate of 630,000 to the square mile, yet the city of Paris shows a far greater average density of population than New York, the figures for Paris being 79,300 a square mile and for New York city proper 40,000 a square mile. The average density of London's population is 37,000 a square mile and that of Berlin 67,600.—Federation Review.

## AN EXCITING RUNAWAY.

McCormick & Howe's Horse Made Exciting Dash, With Bad Results.

Those in the vicinity of South Garden and West Union streets were treated to an unusual sensation Friday afternoon, when a horse attached to a delivery wagon belonging to McCormick & Howe became frightened and made a dash up Garden street, dragging a forty-pound weight attached to the bits.

About half-way up the block, in the rear of The S. J. Thomas Co.'s store, a mule hitched to one of Thomas wagons was disturbed from his peaceful afternoon slumbers and made a break for himself, but was stopped within a short distance without damage.

Turning the corner into West Library street the horse ran into Dr. Colson's buggy, demolishing one of the rear wheels, when the heavy weight was caught in the wheel. This stopped the runaway animal without damage to the wagon, which was a miracle, as the vehicle met several obstacles without "even a scratch."

The Twice-a-Week Sun is an eight page, forty column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

THEY ARE TONY.

The colored people of Alachua are unusually respectable, quite industrious and forehanded, and slightly inclined to be aristocratic when it comes to mingling with the common herd. It seems that a large number of them from here desire to take advantage of the low railroad rates to Jacksonville next Monday, but do not want to come in contact with the drunken turpentine niggers that will be getting on between here and the metropolis. With this end in view they are circulating a paper among themselves in an endeavor to get enough to go to charter a car. The idea is a good one, and will probably enable some of them to live longer and enjoy better health than they will if they mix up with those flat country coons.—Alachua News.

New residences continue to be erected in Gainesville, despite the complaint of dull-times.

Palatka people say they will never play ball with Gainesville again on the thirteenth of the month.

The Pensacola Journal is waging war against the weeds in that city. The Sun would like to see the street committee wage war against them in Gainesville.

G. Henry Davis has covered himself with glory as manager of the Oak Hall baseball team this season. No better or more gentlemanly set of players were ever got together, and we hope to see them again next season.

When Mr. Flagler extends his railroad to Key West that city will truly become the "Gem City of the Gulf," and will be the greatest winter resort in the world, while the construction of the Panama canal and this railroad will make it a great commercial center.

There were several stiff but proud baseball players in Gainesville yesterday. Harry Denton was the stiffest, the work of knocking a ball over the fence and climbing on the top of the fence to get a ball and prevent a competitor from evening up with him, being too much work for one day.

Democrats are now fighting the common enemy, instead of fighting among themselves. This explains why some people express hope of Bryan's election. Hearst and his cohorts are the only stumbling block to Democratic victory.

Impure milk is said to cause more sickness than any other nourishment partaken of by mankind. A vigorous protest is now being made by the press of many cities against the milk sold by some dealers, and asking that the law in reference to inspection of milk be rigidly enforced. The Sun has heard no complaint regarding the milk sold in Gainesville, but it would do no harm to require an occasional inspection of the same. Unclean milk bottles are the source of much sickness, especially fever, and all bottles should be well sterilized after every use. Dairymen who fail to exercise this precaution are running the risk of losing customers through death.

MORE ABOUT GOOD ROADS.

Possibly some readers of The Journal may think too much is being said in this paper about "good roads," that the folks in The Journal office are making the "good roads" question a hobby and are riding it to death, but such is not the fact. So long as there is need for better highways through the country, better means for communication and transportation, so long will it be not only the province but the duty of every public-spirited citizen to agitate and keep on agitating the "good roads" question.

Much has been said and written, and much more can, and will be said and written on this important subject. It is without doubt a subject of paramount importance, over and above all other matters of public concern, to the people of Florida today. It matters not how productive the soil, how propitious the seasons, how salubrious the climate, how beautiful the surroundings, or how healthful any spot or region may be on this earth, it must be accessible in order to be of value.

Farm lands everywhere are valued less by their quality than by the facilities afforded of getting their products to market. And so it is with the city; its prosperity and the stability of its business depends upon the extent of transportation facilities afforded.

Great dependence is placed on railroad and water transportation, but these are useless unless wagon roads connect them. The country roads over which the farmers haul their loads of produce to the railroad or to the river are the foundation of all commercial life. The railroad trains and the steamboats are only supplementary in the great system of transportation. Every sack of wheat or corn, every bale of cotton raised in this great country, amounting in the aggregate to many millions of dollars in value, must first start to market over a wagon road.

America today leads the world in the value of her agricultural products, in the number of miles of railroads and in the extent of her inland water navigation, but it is behind almost every other nation in the world when it comes to good roads on which a farmer can haul his produce or on which a carriage can be driven between its cities and towns.

Good roads through the country are one of the strongest evidences of civilization, enlightenment and prosperity.

One of the greatest benefits carried by the conquering legions of ancient Rome to the regions brought under subjection to their irresistible power was the system of good roads which are still in evidence throughout Europe today.

And in the United States at this time, notwithstanding the all absorbing interest that is being taken in the matter of rail and water transportation, that which should receive the most serious attention of all citizens, both in city and country, is good roads that shall be passable all seasons of the year. In Florida we call them hard roads because we have an abundance of soft and sandy roads.—Pensacola Journal.

Frank Clark seems to have incurred the opposition of one or two of the pee-wee papers on account of his fight against Governor Broward during the past primary campaign, and these papers predict that his "political goose is cooked." Well, if you think so, just persuade Napoleon Bonaparte to contest with the Hon. Frank for his Congressional seat two years hence, and see who will meet his Waterloo. Clark and his friends are ready for the fray.

**Deafness Cannot Be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENNY & CO.

BRIEF DISPATCHES.

It was stated on the best authority, that commencing with March sailings in 1909, the Cunard liners would cut off calling at Queenstown.

Dr. Mark Zeigler, a veterinary surgeon of Arerne, L. I., is dead, his death having resulted, it is said, from the bite of a horse.

Down in the Isthmian canal zone steps have been taken to provide for the muzzling of dogs, there having been several cases of rabies since the first of May.

A conference of eighty leading Russian revolutionaries and nihilists has been proceeding with the greatest secrecy in London for the past twelve days, according to reports.

The minister of railroads at St. Petersburg, Russia, has put into effect a reduction in fares amounting to 50 per cent in favor of the Japanese immigrating to North and South America over the Russian line.

A dispatch from The Hague says definite action by the government of The Netherlands regarding the dispute with Venezuela will chiefly depend upon the attitude of the United States.

It is reported that Walter Wellman, who is in charge of the proposed Chicago Record-Herald balloon expedition to the north pole, will make the attempt to reach the pole by airship in 1909.

Dr. John Miller Moore, an ex-surgeon in the United States navy, is detained at the Villard asylum, Paris, France, suffering from hallucinations. He is said to have left the battleship Kansas at San Francisco.

A delegation from the Spokane, Wash., chamber of commerce has presented to the cruiser Tennessee now at Puget sound navy yard, a silver trophy cup as a reward for the final merit for turret gun marksmanship.

A dispatch from Auckland, N. Z., says the most remarkable thing about the cruise of the American battleship fleet, from the foreigners' viewpoint, is the result of the amalgamation of the line and the engineering corps. "Only twice," the dispatch says, "since the fleet left San Francisco has a ship fallen out of line, and that only for a few minutes for trifling mishaps."

DO YOU GET UP  
WITH A LAME BACK?

Kidney Trouble Makes You Miserable

Almost everybody who reads the news papers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

## FLORIDA NEWS..

The green corn season has lasted twelve weeks in San Mateo, according to the San Mateo item.

Early Sunday morning fire destroyed the Royal Theater and Cafe at DeSoto Park, one of Tampa's pleasure resorts. The loss is fully \$15,000.

Total lumber shipments from the port of Fernandina for the month of July were 6,305,894 feet. This, with other shipments of naval stores, phosphate, etc., amounted in value to \$888,927.

H. D. D'Alemberte, the assistant chief of the Pensacola fire department who mysteriously disappeared about a week ago after having obtained a brief leave of absence to go fishing, is supposed to have gone to Panama.

Persons on the Royal Palm dock Saturday afternoon witnessed a monster whipray playing on the surface of the water at the mouth of the river, it being seen distinctly for some time. This is the first time one of these fish has been seen in the river or this part of the bay.—Miami Metropolis.

"From all reports it seems that Holmes county this year," says The Bonifay Advertiser, "will harvest the largest corn crop in its history. Many farmers also report having fine hogs to turn loose in the pinder field to fatten. And in fact, all the products of the farm have had a fairly good season and the harvest will be abundant." This seems to have been a good crop year for Western and Middle Florida. The weather seems to have been just right. In this, those sections appear to be in marked contrast with South Florida, drought-cursed as it has been.

The Children of the Confederacy are holding a meeting this afternoon at the home of Mrs. D. Hale Wilson, at which a large number are present and a fine work is being accomplished for the chapter. The children for some months have been engaged in making a quilt for the Soldiers' Home and this afternoon they are engaged in quilting it, and giving to it the finishing touches. They have taken great interest in this work and are soon to quilt a second, which is now partially finished. The Pensacola Chapter, Children of the Confederacy, are doing a fine work, and bid fair to be the banner chapter of the State. Among other good work they have taken up is that of raising money enough for a scholarship in the Berry School of Tennessee. The Pensacola chapter with that of Marianna has undertaken to subscribe fifty dollars to this fund, for the education of one boy, a son of a Confederate veteran. The chapter has been organized now for nearly two years, the second anniversary to be celebrated on Saturday, August the 15th, by a reception to be held at the home of the president, Mr. Lee Goulding, of which further notice will be given.—Pensacola Journal, 13th.

### ABSCONDER'S NOVEL DEFENSE.

**Claims Money Did Not Legally Belong to Company.**

New Orleans, Aug. 14.—Somewhat of a novel defense was made in the criminal court by John R. Petrich, formerly cashier of the Postal Telegraph Company in this city, when he was placed on trial on the charge of having stolen \$10,000 from the company about a year ago.

Petrich claims that during the strike of operators employed by the Postal Telegraph Company during 1907, the concern received messages and charged full tolls on them and then sent them all or part of the way by mail. After making this point, his counsel set forth the claim that such money collected did not lawfully belong to the Postal Telegraph Company, and, therefore, the company could not charge embezzlement when Petrich's shortage occurred during the strike.

Petrich left New Orleans when the shortage was discovered but was later arrested in New Mexico and brought back for trial.

### SAYS WHISKY IS BEING SOLD.

**Georgia Anti-Saloon League Will Renew Fight for Prohibition.**

Atlanta, Aug. 14.—Assistant Superintendent J. B. Richards, of the Georgia Anti-Saloon League, is authority for the statement that beer and whisky in large quantities are being put on sale in the city, and that the prohibition law is being violated openly.

Mr. Richards says the advances of the liquor interests will be taken as a signal for the prohibitionists to get busy with renewed fervor. He says the renewed fight for prohibition will be waged in two ways through the re-awakening of sentiment against the liquor traffic, and by the enforcement of the pure food laws.

### Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

### Officer is Acquitted.

Mobile, Ala., Aug. 14.—Information was received here that Officer J. K. P. Johnson, of Mobile, who was arrested here on the charge of murder said to have been committed twenty years ago, and carried to Woodville, Texas, announcing his acquittal of the charge. The trial was a hard fought one and involved several clergymen. Johnson proved that he was several hundred miles away when the crime was alleged to have been committed.

### GEORGIA LEGISLATURE.

**Convict Question Special Order of Business.**

Atlanta, Aug. 13.—The morning session of the senate on Tuesday was slow and tedious, the first half of the session being taken up with the reading and passage of several local bills.

The convict question came up again at the second half of the session, and Senator Knight moved that the Holder bill be taken up and read by sections. Several amendments were offered to the sections, but they were of no material importance to the bill.

When the senate adjourned at 5 o'clock Tuesday afternoon it was after two slow and tedious sessions, in which no business of note was transacted in the morning.

Senator Gordy moved at this time that the convict question be brought up, and the motion prevailed. Senator Knight then moved that the Holder bill be taken up and read by sections, and any amendments that were to be offered could be offered following the reading of each section. This was done and several amendments that did not materially affect the status of the bill were adopted.

If the rules committee of the senate reports favorably Senator Gordy's resolution setting the special order of business for Wednesday morning's session the convict question, the morning will be consumed by this question, with debate limited to twenty minutes on the part of each speaker.

At the night session of the senate the bill by Mr. Adams, of Chatham, making it a misdemeanor for a money lender to charge a rate of interest higher than 5 per cent per month was passed, 31 to 9. The bill had previously been passed by the house, and was passed by the senate without amendment.

Senator Hardman moved that the bills appropriating money to the State Agricultural college and the state agricultural schools be set as a special order of business following the confirmation of the journal. The motion was passed.

A special message was sent to the legislature shortly after 10 o'clock Wednesday morning by Governor Smith, urging the general assembly to devote the closing day of its session to the passage of legislation other than the convict measure and expressing his readiness to call an extra session within ten days or two weeks to consider this question.

### NEGRO THREATENED WOMEN

**Vigorous Search Being Made by a Posse Near Athens, Ga.**

Athens, Ga., Aug. 13.—A negro about 22 years old attempted to assault Mrs. J. B. Wages at her home 5 miles from Athens while her husband was in Athens. The quick appearance of her sister saved her. She plead with the negro and made so much noise that the negro threatened to kill both women and their children. He told them to stay in the house and he would wait until Mr. Wages came home and would then kill him and accomplish his purpose. They stayed in the house until nearly dark.

A vigorous search for the negro is being made both by the neighbors and officers.

### Ten Years in Bed.

"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." J. W. McCollum & Co.

### THE PEOPLE ALL

**In Chorus Cried, Give Us Newbold's Herpleside.**

This word of late has been in everyone's mouth, and many are wondering what the word signifies. Though no one has yet been found, who will deny that NEWBOLD'S HERPESIDE does the work well, for the information of thousands of people who like to know all about a good thing, we would say that HERPESIDE means a destroyer of Herpes.

Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar parasite causes dandruff, making scalp and falling hair; this is the parasite that NEWBOLD'S HERPESIDE promptly destroys after which the hair grows. Sold in vials for example to The Herpleside Co., Detroit, Mich.

## DRAWS DARK PICTURE OF RULE OF RUIN IN VENEZUELA

Writer of Note Describes Results of Castro's Rapacious Regime—Foreign and Home Industry Destroyed and People Starving.

Over the signature of Stephen Bonsal, who writes from first hand knowledge of affairs in Venezuela, the New York Times prints an article on "Cipriano Castro, Cattle Bandit of the Andes." Mr. Bonsal says:

It is undoubtedly a mistake to characterize Castro as a South American type. He is fortunately an exceptional man in any continent.

For many years now Castro has had no relations with the respectable classes among his fellow countrymen, except those which the jailer has with his prisoners and the burglar with those whom he robs. One after another the European and the South American powers have at the instance of self respect been compelled to sever all relations with the "bad man" of Caracas. The representatives of Columbia, Chile, the United States and France recently withdrew, and now even the stolid, long suffering Dutch minister has gone, until today the diplomatic officers remaining in Caracas can easily be transported in a four seated barouche.

### LOOKS OUT FOR OWN PROFIT.

From the day when Castro entered the astonished capital with the (in view of his acts) almost sacrilegious words, "God and the Federation," emblazoned upon his yellow banners he has ruled the country according to the dictates of his personal caprice and for the greatest profit to himself and his Andean comrades.

Several of the half hearted defenders of the Castro regime, and a few such there are, say that all the friction which has resulted in the almost complete ostracism of Castro by the civilized world has arisen over the claims of foreign concession hunters. After all, it is asserted, these men invested their money in the country with full knowledge of the conditions obtaining there, and several of them in advance committed themselves to the position of promising to seek no redress for their wrongs, real or fancied, except at the hands of the Venezuelan courts.

### COURTS ARE CASTRO'S CREATURES.

This view of reasoning sounds well, but it is not in accord with the facts. When the American concessions which have now been confiscated or are disputed were made there were courts in Caracas which commanded confidence, and Castro has abolished them or changed their personnel without observing the due processes of the law in so doing.

The other charge which the partisans of Castro bring has much more foundation in fact. The accusation is that during the Matos rebellion all the foreigners aided the Matos forces with men, money, arms and information. These charges have never been proved by evidence that would stand scrutiny, but here at least there is some basis in fact. In three years Castro had hampered and indeed in many instances, as in the asphalt concession, absolutely ruined every enterprise in the land conducted by foreigners.

### MATOS FAILED TO SAVE COUNTRY.

Then Matos, an honest man of good antecedents and with the best blood in the country flowing through his veins, made his bid for the presidency in the revolutionary way, the only way, owing to the utter defiance of the electoral laws by the usurping cattle thief, that was open to him. Matos failed because he was not a man of war, and during the last four years Castro has devoted himself to the Indian punishment of those whom he suspects, undoubtedly with some reason, of having abetted his rival.

As a result the commerce of the country has dwindled to nothing; the bountiful crops are not harvested because there is no money in the land; people are starving in what was actually the land of plenty; only the black death travels from deserted port to grass grown Caracas, inflicting the last touch to a gloomy picture.

### PUT FOUR BULLETS IN WIFE.

Birmingham, Ala., Aug. 13.—A special from Hattiesburg, Miss., says that John Harris, a negro, followed his wife from Ellaville to Hattiesburg and approached her saying: "Come here, honey, and tell me good by" and as she extended him her hand he grabbed her and fired four bullets into her body. Immediately after the shooting a crowd of angry negroes gathered and with determination to wreak vengeance on the shooting man attempted to take him. Harris made a break for liberty and despite the fact that a number of bullets went in his direction he succeeded in getting away. Jealousy was at the bottom of the shooting.

Young Minister (searching for miser)—Have you a glass here? Beadle—Na, us, sir; we dinna need a glass. We just tak' a look out o' th' bootie.—London Times.

## A WOMAN'S BACK

Has many aches and pains caused by weakness and failing, or other displacement of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cure. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glycerine extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or known compository, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

### FATAL TO MILLIONAIRE.

J. Montgomery Sears Killed While Going 60 Miles an Hour. Providence, R. I., Aug. 14.—J. Montgomery Sears, the young Boston millionaire whose skull was fractured in an automobile accident near here, died at the Rhode Island hospital.

The car was being driven at a speed of about 60 miles an hour. At the point where the accident occurred there is a sharp curve. As the road is a lonely one and the men had to rely wholly on their own lights, it is presumed that they came upon it unexpectedly and in attempting to round it at the high speed one of the front wheels of the machine broke and the car plunged over an embankment.

Indorse Proposal to Amalgamate. Manila, Aug. 14.—The veterans of the army of the Philippines, now assembled in convention in this city, have unanimously indorsed a proposal to amalgamate the island organization with the United Spanish war veterans of America in compliance with an agreement recently entered into at Washington. D. C. Colonel Harbord, of the Philippine constabulary, was elected departmental commander by the convention. Resolutions adopted by the convention indorse the administration of President Roosevelt and also that of Governor Smith.

### DISAGREEABLE AT HOME.

Lots of men and women who are agreeable with others get "cranky" at home. It's not disposition, it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

### TREASURER COMMITS SUICIDE.

Peoria, Ills., Aug. 14.—E. J. Lewis, treasurer of the Savings Life Insurance Company of Peoria, has committed suicide by taking poison in a saloon here. He was a thirty-second degree Mason and a prominent lodge man throughout the state. He leaves a widow and two children.

### A WEAKLING

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food, the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after effects. Price 25 cents a bottle. Sold by W. M. Johnson.

## NEED FOR REGULATING VIVISECTION OF ANIMALS.

Prohibition Not Advocated, Only Law That Will Make Needless Cruelties Impossible.

The New York Society for the Prevention of the Abuse of Animal Experimentation has authorized the following statement. The society does not want to be confused with other organizations that advocate the entire prohibition of vivisection:

Reports lately appearing in the press of frightful cruelties incident to the practice of vivisection again show the need for some such legislation as was proposed in the Davis-Lee bill introduced at the last session of the New York legislature.

Aside from the opposition of some members of the medical fraternity, there was a strong public demand for the enactment of this measure after it became known that it in no way interfered with serious scientific research or necessary and humanely conducted experiments upon living animals.

In substance, the bill provided that all experiments shall be under the authority of a college, hospital or board of health and that the places where such experiments are conducted shall be registered. It was also provided that anaesthetics should be used in all cases where the success of experiments would not be interfered with and that the animal must be killed after the experiment has been made unless the usefulness of the experiment required that the animal be permitted to live. Brief reports of all vivisections were required to be made for a permanent public record.

No reasonable objections can be made to such a law. Under it the medical profession would be as free as it is now to carry on proper experiments.

It would, however, tend to put a stop to useless and needlessly cruel practices. The public has been roused by such reports of these practices as are made public, and there is a strong feeling that there are a great many more instances the public never hears of.

### GERMAN TELEGRAPH CENSUS.

Show Why United States With Twice the Population Sends Only Half as Many Messages as Great Britain.

An investigation just completed by the German government shows that Great Britain sends the largest number of telegraph messages a year—94,000,000. The United States, with twice the population of the United Kingdom, sends only 65,000,000 messages, Germany 52,000,000 and France 58,000,000. The position of the United States in the next telegraph census will no doubt be improved by the quick, low cost service of the new telegraph company, the Telepost.

The United States has 1,155,480 miles of telegraph wire, four times as much as the United Kingdom, but the American companies earn only \$24 per mile against earnings of \$39.60 in Great Britain, where the average cost per message is only 16 cents as compared to an average cost of 32 cent here.

In Germany the government lines find it profitable to carry a ten word message between any two points in the empire for 12 cents. This is the rule upon which the Telepost will operate here—a flat rate of twenty-five words for 25 cents between all points.

The success of the German system appears to confirm the wisdom of the Telepost in making a rate without regard to distance. With the largely increased business that is shown to be the result of low rates and good service and with the economies made possible by the Telepost's automatic system, experts who have studied the question believe that the new company will make a larger profit at 25 cents for twenty-five words than the old companies make at much higher rates.

## THE MOST NOURISHING FOOD.

Dietists Say That It Is Currant Bread.

New Ways of Making This Staple.

Some of the most distinguished diet specialists in the world assert that currant bread is the most nourishing article of diet that can be as regularly eaten as white bread. White bread made with a liberal quantity of dried currants is already very popular. Here are two new recipes for making currant bread with whole wheat flour and with potatoes:

Scald (do not boil) one and a half cups sweet milk and one cup water. When tepid add one-half cake compressed yeast after soaking ten minutes in cool water, two tablespoonsfuls of sugar and a teaspoonful of salt. Stir in enough whole wheat flour to make a stiff batter. Allow to rise—three hours is long enough if kept warm overnight if cool. When light add one egg, one tablespoonful of melted butter, one cup of cleaned and dried currants. Beat well, then add whole wheat flour to make a soft dough. Work well, mold into two loaves, place in greased pans, brush over with melted butter, let rise until light and then bake in hot oven.

Boil one medium sized potato in a quart of water until soft. Scald one small cup of flour with the hot potato water and add mashed potato beaten thoroughly to prevent lumps. When cold add one cake compressed yeast soaked in a little cold water. Let stand six hours to rise, then add one pint warm water, one pound thoroughly washed currants, one tablespoonful of lard, salt, two beaten eggs, one cup brown sugar, cinnamon if desired and flour to make a stiff dough. Knead ten minutes, put into covered pan in a warm place to stand overnight. Bake in the usual way.

### Made the Judge Perspire.

Sir John Charles Day, the English judge who earned the title of the "hooligan's terror," died at the age of eighty-two. In the nineteen years Sir John was a judge of the high court from 1882 to 1901—he was noted for his gift of solemn humor and for his drastic flogging sentences. In fourteen years he sentenced 137 criminals to 3,766 strokes of the cat. Once he said to a gang of Liverpool ruffians: "I am not going to give you men long terms of imprisonment, but when you go in you get twenty lashes of the cat; when you have been in nine months you get twenty lashes of the cat; before you come out you get twenty lashes of the cat. And then you can show what you have got to your friends." He was perhaps the only English judge who ever did "hard labor." While on a visit to a prison he tried the treadmill, but when he asked to be set free the guard pretended not to hear his request. The judge was perspiring freely by the time he was permitted to abandon his experiment.

### Eggs Barred.

One evening a solid looking citizen, carrying a basket, bought a ticket and started to enter the opera house in a Long Island town. Just as he was going in the cover of the basket unaccountably slipped off, revealing two dozen eggs.

"Hey!" said the ticket taker. "This isn't Easter. Where you going with them eggs?"

"None o' y'r business! Here's my ticket, all paid for an' reg'r," declared the citizen.

"Well, there don't any eggs go inside while I'm here," said the ticket taker, and then the other saw the reason his burden was suspected and roared with laughter.

He left the eggs in charge of the man at the box office and entered, and he enjoyed every moment of the show. When it was over, the manager returned the eggs to him and said:

"I was afraid you might put your foot into the basket while you were applauding."

The Bits of a Dog.

"I want to say a few words about hydrophobia," said a physician. "When an animal bites through clothing there is little or no danger of infection. The virus is on the teeth of the animal and when the person bitten has received the wound through a layer of clothing there is little danger.

The virus on the teeth is left in the clothing and is not communicated to the person bitten. Rabid dogs or other animals are not like reptiles. They have no hollow teeth through which poison may be communicated. It must be introduced directly into the system of the victim.

"Therefore, when a supposedly rabid dog bites a person, if the bite is not on an exposed part of the body he should have no fear."—Washington Post.

## DO YOU WANT TO

## MAKE OR LOSE MONEY

## THIS SUMMER?

THERE is no good reason for any "summer dullness" in the stores of this city. That's a strong statement—but it's not nearly so strong as the one to follow.

No store in this city ever suffered from summer dullness that was not directly traceable to its advertising policy—that was not INEVITABLE on account of its advertising policy. This is a strong statement—but not so strong as the one to follow.

You—if you who read this are a merchant in this city—HAVE THE ABSOLUTE POWER TO DECIDE WHETHER, during THIS summer, YOUR STORE SHALL LAG AND LOSE GROUND, through ENCOURAGING THE NON-BUYING HABIT IN THE PEOPLE—or shall keep as busy as in the so-called "busy seasons." You decide the matter one way or the other when you decide on how much or how little you will advertise during these summer months.

To really "gain ground" at a time when some stores are lagging and falling back is not only possible—it is an aspiration—worthy of a man who has the habit of accomplishing his purpose.

L. H. Bennett left yesterday for Santa Fe, where he will spend the next few days. Mrs. Bennett is recuperating in North Carolina.

Attorney Thos. E. Owens, formerly of this city and High Springs but now making his home in Jacksonville, was in the city on professional business Friday.

H. S. Thomas, the genial proprietor of the LaMatanzas cigar factory, returned yesterday from a visit to Alachua and High Springs in the interest of his line. He reports a good trade.

Mrs. W. Sobol and son, Meyer, have returned to their home, after a pleasant and beneficial outing at Pablo Beach for the past five weeks. Friends are glad to welcome them home again.

William Bates, formerly of Windsor but now making his home at Palatka, accompanied the Gem City boys to Gainesville Thursday. He has many friends in this section who are always glad to see him.

M. W. Hogan, agent of the Seaboard Air Line at Waldo, was a visitor to this city yesterday. He is one of the jolliest "fellows" in the world, and has many friends here who are always glad to see him.

Col. Henry S. Chubb, who went to Jacksonville Wednesday to be present at the State Republican Convention, has gone to Trion, N. C., to spend a few days with his family, who are sojourning there for the summer.

Miss Rachael Mixson, formerly of this city but now of Ocala, has returned to the Brick City, after a pleasant visit to her father, S. M. Mixson. The numerous friends of this young lady were glad to welcome her to her old home.

Remember the excursion to Jacksonville Monday, the 17th inst. Special train will leave Gainesville at 10:15 a. m. on Atlantic Coast Line railway, reaching Jacksonville at 2 p. m. Tickets only \$1 for the round-trip, good returning on regular trains leaving Jacksonville either Tuesday or Wednesday.

Hugh White of Atlanta, one of the cleverest traveling men who visit this section, is in the city.

Miss Cylla Kennedy is out again, after having been confined to her room with fever for the past few days. This will be good news to her numerous friends.

Mr. and Mrs. F. B. Hester of Evinston were among those who favored this city with a visit yesterday. Mr. Hester is the accommodating agent of the Atlantic Coast Line at that point.

Dempsey & Richardson have opened up a first-class restaurant in the Found building which will hereafter be known as the "City Cafe." They will make a specialty of short orders and will serve regular meals. Give them a call.

John G. Ramsaur, for many years a popular conductor in the employ of the Atlantic Coast Line, but now connected with the phosphate department of the Cummer Lumber Company with headquarters in Newberry, returned to that point yesterday, after a couple of days spent here on business.

Mrs. J. Manasse and interesting little daughter, Miss Marion, and Mrs. L. J. Burkham, left yesterday for Hendersonville, N. C., where they will spend a few weeks recuperating. They were accompanied as far as Jacksonville by Mr. Burkham. Friends wish them a pleasant and beneficial sojourn.

Mrs. J. E. Whidden, who for the past year has resided on West McCormick street, has leased the building, 209 West Orange street, where she will conduct the Whidden House, an up-to-date boarding-house. Mrs. Whidden formerly conducted a hotel in Arcadia, where she enjoyed fine success, and will no doubt succeed here.

One of the prominent business men of Palatka who visited Gainesville Thursday with the excursionists was F. A. Gerber, a successful furniture man of the Gem City. Mr. Gerber is also an enthusiastic baseball "fan," and manifests a great pride in his home team. Naturally he was disappointed at the result, but declares it was one of the prettiest contests he ever witnessed.

W. T. Pound is now in Blueridge Summit, Pa., where he went on a visit to his mother, Mrs. S. L. Pound. Mrs. Pound spent several weeks in Baltimore since leaving Gainesville, going from that city to the Pennsylvania town, and writes that her health is improving and that she is enjoying the outing immensely, which will be pleasing information to her many Gainesville friends.

Geo. A. Main, agent of the Tampa and Jacksonville and one of the leading truckers of Rocky Point, was in the city yesterday. Mr. Main was en route to Nocatee, where he will spend a few days with his brother, Mert J. Main. These gentlemen own a handsome grove near Nocatee. Mr. Main ordered The Sun changed from Rocky Point to his address in Nocatee while absent, as he wants to keep posted on the happenings.

Rev. B. P. Robertson, dean of Columbia College at Lake City, will fill the pulpit at the First Baptist church in this city Sunday morning and evening, having relieved the pastor, Rev. S. B. Rogers, who is temporarily filling appointments in the First Baptist church at Jacksonville. Rev. Mr. Robertson is regarded as an eloquent and forceful speaker, and a treat is no doubt in store for those who attend the services tomorrow.

Among the Palatka's who spent Thursday in Gainesville was P. J. Becks, a prominent contractor of that city, who is, by the way, an enthusiast on baseball. Mr. Becks as a matter of course regrets very much the defeat of his home team, but declares it was one of the prettiest games he ever saw. Mr. Becks, who knows a good building when he sees it, complimented Gainesville very highly on the class of buildings which have been erected here within the past year or two.

### BAKERY WILL CLOSE.

After August 15th we will close our bakery for a period of 12 days to make some much-needed repairs and other improvements. When these improvements and repairs are completed we will again be in a position to give you good and prompt service, and trust that we shall receive the same liberal patronage from you as heretofore. Respectfully yours,

THE KEYSTONE BAKERY

## IN THE BANKING BUSINESS

Just like in every other line, if a success is made of the business, it must be run on business principles and every customer must be pleased. With us, pleasing our customers is our "long suit." While we are in business to make dividends for our stockholders, we never lose sight of the fact that our success depends on the patronage we receive at the hands of the public; to increase this patronage we accord our patrons fair treatment, and make them (of their own accord) send us customers, knowing their friends will receive a fair deal at this Bank.
